5.0 SIGNIFICANT ACCOUNTING POLICIES

The principle accounting policies adopted in the preparation of these Financial Statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated.

a) Basis of Preparation

The financial statements are prepared in accordance with International Financial Reporting Standards (IFRS) under the historical cost convention as modified by the revaluation of certain assets. The provisions of IFRS' International Accounting Standard (IAS) No. 26 – Accounting & Reporting by Retirement Benefit Plans have been included in the preparation of the Financial Statements. Further, the Financial Statements comply with the Retirement Benefits Authority Act 1997 and the Retirement Benefits Authority regulations 2000, both as amended and Income Tax (NSSF exemption) Rules 2002. The preparation of Financial Statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Fund's Accounting Policies.

b) Accounting for contributions

Contributions from employers/employees and benefit payments to members are accounted for on accrual basis in the year due.

Benefit payment cheques going stale before they are presented to the bank are written back in the cash book and a liability thereof recognized in the financial statements.

Interest payable on members accumulated contributions (standard contributions plus interest) is accrued annually at the agreed rate in accordance with section 19(2) and (3) of the National Social Security Fund Act (2008 – 5.0% and 2009 - 5.0%).

c) Income Recognition

i) <u>Dividends</u>

Dividend income from investments is recognized when the Fund's rights to receive payment as a shareholder have been established.

ii) Interest on Deposits with Financial Institutions

Interest on deposits with financial institutions is accounted for on accrual basis.

iii) Interest/Discounts on Treasury Bills and Treasury Bonds

Interest on Treasury bills and bonds is credited to income on a straight-line basis over the maturity period of the investments.

iv) Coupon Interest on Government Securities

Coupon interest on Government securities is accounted for on accrual basis.

d) Tenant Purchase Scheme

Interest income on Tenant Purchase Scheme loans is calculated on the balance outstanding at the end of each month at the rate prevailing. The rate, currently at 15%, is variable at the discretion of NSSF's Board of Trustees.

e) Depreciation

Depreciation is calculated on a straight-line basis, at annual rates estimated to write off the carrying values for property, plant and equipment over their expected useful lives as follows:

PARTICULARS	%
Freehold and Long Term Leasehold Land	Nil
Motor Vehicles	20
Computer and Microfilming Equipment	33.33
Office Furniture	10
Office Equipment	12.5
Fittings and Furnishings	20

f) Investments

(i) <u>Quoted Equities</u>

Equities are stated at market value. Differences between cost and market value are debited/(credited) to the revenue statement. Upon sale of the investment, the surplus/ (deficit) relating to the transaction is dealt with, in the revenue statement.

(ii)<u>Unquoted Equities</u>

Unquoted equities are stated at cost less provision for any permanent diminution in value.

(iii)<u>Treasury Bills and Bonds and Government Bearer Bonds</u> Treasury bills and bonds and Government bearer bonds which are held to maturity are stated at amortized cost.

g) Investments in Land and Buildings and Plots

Land and buildings and undeveloped land/plots are stated at valuation/fair value. Investment properties under construction are measured at cost.

h) Cash and Cash Equivalents

For purposes of presentation in the cash flow statement, cash and cash equivalents comprise bank balances, short-term deposits and treasury bills maturing within 3 months.

i) Impairment

The carrying amounts of the Fund's assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such asset exists, the asset's recoverable amount is estimated and an impairment loss recognized whenever the carrying amount of an asset exceeds its recoverable amount.

j) Valuation of Assets

Valuation of Investments in land and building, and undeveloped land was done during the year by professional valuers and a report issued as at 30 June 2009.

k) Employee Benefits

The majority for the Fund's employees are eligible for retirement benefits under a defined contribution plan.

Contributions to the defined contributions plan are charged to the statement of changes in net assets as they are incurred. Any difference between the charge to the statement of changes in net assets and the annual contributions paid is recorded in the Statement of Net Assets under other liabilities/assets.

I) Actuarial Valuation

An actuarial valuation was carried out by Protessional Actuaries and a report issued on 30 June 2008. The valuation was done on an attained Age method. The actuarial report indicates that the value of liabilities of the scheme was kshs.67,525 million compared to the value of assets amounting to kshs.64,270 million giving rise to a shortfall of Kshs.3,255 million. This compared to Kshs.3,959 million shortfall in January 2004 is an improvement of Kshs. 704 million. On accounting basis, the assets are over accrued liabilities by 23.014 billion and a funding ratio of 134%.
